

Kesgrave Town Council

Reflection Tree Star Template

Please download this template and save on your PC. Then open it, and choose the star size you would like to use.

You can create your star in one of two ways:

i) print the chosen star on plain paper, cut the star out and stick it to a suitable piece of card and cut the star out from the card.

ii) print the chosen star on 160gsm (or higher) card. Any colour card will do including gold or silver covered card as long as your printer can print on it. Then cut the star out.

NB Please check that your printer can support the card paper weight you are using. Printers can struggle to print on thicker card.

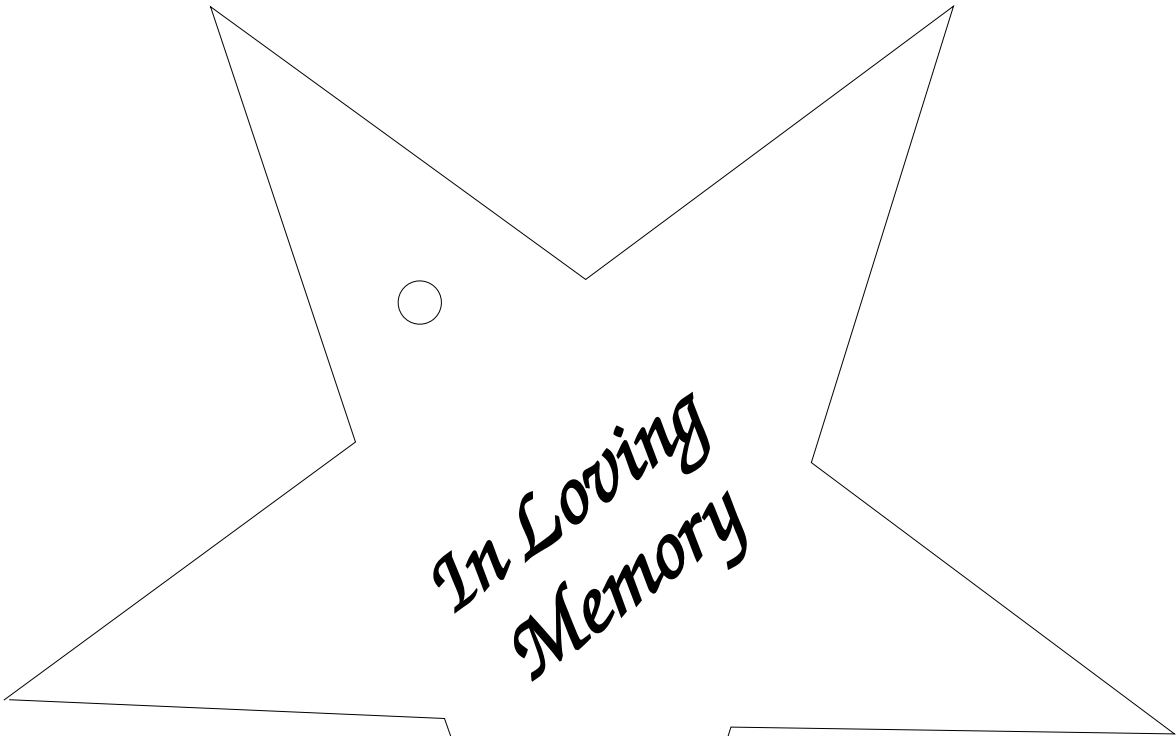

Then make the hole, and attach a piece of string to hang it by. A 200mm length of string tied in a loop should suffice.

Write any inscription you would like on the back and take it to the Town Council Offices and hang it on the Reflection Tree.

Optionally, you may wish to consider waterproofing the star (with a spray for example), as the star will be up over the Christmas period.
